

**By the Judgement of 10 October 2024 No.45-II, the Constitutional Court assessed constitutionality of items 27 and 29 of the Rules for granting social payment for the purchase or construction of housing to employees of law enforcement bodies of the Russian Federation, persons serving in the National Guard of the Russian Federation and special police units, and other persons entitled to such payments, approved by the Resolution of the Government of the Russian Federation of 30 December 2011 No.1223.**

These interrelated provisions have been examined in so far as they serve as a basis for the recalculation of the total area of the housing allocated to a staff member and members of his family when the children living with him reach the age of 18 (23 if studying full-time in an educational organisation), and for the removal from the register in order to receive a lump-sum payment for the purchase or construction of housing.

The contested interrelated provisions were found not to be inconsistent with the Constitution of the Russian Federation, since they do not provide that the mere fact that internal affairs officers and other persons entitled to receive such payments, live with children of the above age may serve as grounds for removing such persons from the register for the purpose of receiving a lump-sum social payment, if there are no changes in the level of their actual housing conditions.
